About Us

Aditya Timpack Pvt. Ltd. is an ISO 9001:2015 certified and government-recognized export house, known as a leading FIBC bags manufacturer in India. We specialize in manufacturing high-quality jumbo bags, PP woven bags, laminated sacks, and industrial bulk packaging solutions.

Our FIBC (Flexible Intermediate Bulk Container) bags are widely used in industries such as Textile Industry, Construction & Building Materials, Petrochemical & Polymer Industry, Export, Logistics & Warehousing, Mining & Minerals. With advanced manufacturing facilities and strict quality control, we ensure export-grade packaging solutions for global markets.

Food-Grade Manufacturing Excellence (BRC Certification) BRC Certification process currently underway, with targeted completion by end of 2026.

Our Product

Cross Corner Bag

Size Range

Sustainability

Aditya Timpack is powering next-gen projects with high-performance FIBC manufacturing where there are no creative limits. Our operations are sustainable, automated, efficient, reliable and truly innovative. With a 3MW automation and green energy plant, including a 2.4MW solar park and 0.5MW rooftop system, we generate 80% renewable clean electricity. Driven by eco-smart, carbon-lite technology and battery-operated forklifts, we are reducing our carbon footprint while delivering strength you can trust

✦ REDUCING CARBON

✦ RENEWABLE CLEAN ENERGY

3MW AUTOMATION & GREEN ENERGY

CSR ACTIVITIES

“Charity for education, supporting the needy with basic requirements, organizing medical camps, participating in blood bank initiatives, and other activities for social upliftment.”
